

# Meet the only nationally-recognized full-service amenities provider to the multifamily housing industry

## Valet Living Home

Valet Living Home® is powered by technology, but delivered by the best people in the business. Exclusive best-in-class amenities are performed by our trusted associates, and your residents request fitness classes, home cleans, pet visits, package deliveries, register for virtual events and more through a single app.

## Valet Living Interactive Doorstep

Even though Valet Living created the doorstep collection amenity decades ago – we've never stopped innovating it! Interactive Doorstep Increases resident satisfaction with less missed pickups and reduces the time your on-site team has to deal with trash-related questions or issues, all through our easy-to-use resident app.

## Torch Fitness by Valet Living

Instead of your residents leaving to work out, build a community at your community! Turn your well-equipped but empty fitness facility (or other open space) into a connection-building machine by putting Torch Fitness by Valet Living at the heart of your community. Give your residents fitness classes and more!

## Valet Living Pet

BYOP (Build Your Own Pet Park) is the industry's only online customizable tool that allows you to design your community's dog park in minutes or choose from our popular kits. Just visit [ValetLiving.com/BYOP](http://ValetLiving.com/BYOP), design your park and receive a rendered plan, product photos, estimate and free install consultation.
